# CONTRACT PAYMENTS AND PRICE VARIATIONS

- 5. Payment will normally be made on the 30th day after the receipt of a correct invoice and any required accompanying information after each calendar month's operation. Where there will be less than 5 days operation in a calendar month these days should be added to the previous month's or subsequent month's invoice.
  - a) In the case of minimum cost Contracts the Council will pay the Contractor in respect of each calendar month following receipt of an invoice and monitoring form covering that period. The amount to be paid will be the monthly invoice less fares collected for that period, with the proviso that for any period in which the income attributable exceeds the contract price that surplus shall be carried forward and offset against the next and, if necessary, succeeding periods by credit note.
  - b) The information to be included in the monitoring form will be determined from time to time by the Council but will include:
    - i. Farebox revenue
    - ii. Number of passengers including concessionary travel holders

  - d) Where monitoring forms are required they must be completed accurately. Failure to disclose late mileage or non-specification vehicles on monitoring forms will attract penalty points and is likely to delay payment.
  - e) In adverse weather conditions the following payment rules shall apply: the full morning rate will be paid for any scheduled morning journey if a vehicle has set out but is then unable to complete the job because of weather conditions, but no payment for the return journey if it was known that the journey was not required.
  - f) The preferred method of payment is by BACS, unless otherwise agreed by LCC.
- 6. No payment will be made for journeys that run early or, through the fault of the Contractor, run more than 30 minutes late or not at all. Payment will be reduced by a third for journeys

which run, through the fault of the Contractor, between 10 and 30 minutes late. Please note that it is expected that every effort is made to operate all journeys. Drivers should contact their supervisor before not operating journeys. Return journeys must always be operated completely. Regular lateness should be reported to the Council.

7. Contracts within the Agreement that have been running for a minimum of 12 months will be eligible for a price review from the following April 1<sup>st</sup> each year, provided there has been no price adjustment within the previous 12 months. - 13. Drivers must be able to show on demand and correctly interpret any faretable applicable to a contract service and be able to accept travel concessions and/or other specified special tickets.
- 14. In the case of minimum cost Demand Responsive Transport contracts the Contractor shall charge such fares as are specified by the Council and those fares shall be varied in accordance with the Council's instructions.

- 18. Additional or reduced picking up and setting down points on line of route will not attract any change in Contract rates.
- 19. Contracts may be terminated by either party at any time giving at least one calendar month notice or sooner by mutual agreement. The rights of the parties to performance and to payment (or recovery of costs) are without prejudice to the notice of termination under this clause. The Contract may be terminated with immediate effect and without notice as provided for in Appendix A. The Council will seek to recover any additional costs incurred in lieu of notice as a result of immediate termination or termination of a Contract without appropriate notice.

# PUBLICITY, NOTICES AND DATES OF OPERATION

- 20. - 22. The Contract will operate as specified, except for Bank Holidays, Christmas Day, Boxing Day and New Year's Day, with the exception of Good Friday when the service will operate if scheduled.

## **SUB-CONTRACTING & ASSIGNMENT**

23. The Contractor shall not assign, sub-contract or otherwise dispose of his/her interest under this contract without receiving in advance the consent of the County Council PROVIDED that this condition shall not prohibit the Contractor from arranging for the provision of a service under this contract by vehicles operated by a third party in an emergency (in which cast the Contractor shall inform the Council Council as soon as possible afterwards). In the event of sub-contracting taking place the Contractor remains liable for meeting all conditions of Contract. A limited number of contractors may be authorised to act as 'brokers' in the sense that they may use other licence holding companies and individuals to cover contract work. These contractors remain responsible for all aspects of Contract compliance and they must inform the Council of which other licence holding companies they use or may use for Council contract work in writing in advance of using them. The Contractor shall supply a dated list of

- the other companies to the Council. The Council reserves the right to exclude such 'broker' type operations from using certain companies.
- 24. Where the Contractor enters into a sub-contract with a supplier or contractor for the purpose of performing its obligations under the Contract, it shall ensure that a provision is included in such a subcontract which requires payment to be made of all sums due by the Contractor to the subcontractor within a specified period not exceeding 30 days from the receipt of a valid invoice.

No prerecorded material should be played on Contracts except by prior agreement (such as particular music that may calm certain passengers).

- 33. The Contractor must inform the Council of any changes relating to the scheduled requirements of the Contract, particularly where these affect the operation of the Contract, for example when a passenger stops travelling or reduces the number of times that travel on the Contract without prior notice from the TO. Any changes to the Contract schedule known by the Contractor must be reported to the TO by the Contractor within 5 working days. Any

## FAILURE TO OPERATE SERVICE AS SPECIFIED

45. The Council operates a system of penalty points for any failure to operate services as specified in individual Contract Schedules (including Schedule 1) and Schedules 2 Sections A and B to ensure any penalties applied are fair and consistent; the system in use is described in Appendix A to this schedule. This system does not remove the right of the Council, if and whenever there shall be any breach, non-observance or non-performance of any obligations on the part of the Contractor herein contained, by notice in writing from the Council to the Contractor forthwith to terminate the Contract. The Contract shall cease and terminate forthwith except to the extent the parties shall fulfil their obligations under the Contract up to the time of termination and without prejudice to the parties rights to seek compensation for any breaches.

#### SCHEDULE 2 - APPENDIX A: FAILURE TO OPERATE SERVICE AS SPECIFIED

- 1. The penalty points system described in this appendix is designed to ensure that failures to meet the contract conditions are followed up with a penalty which is appropriate to the failure and fairly applied and which gives the Contractor an incentive to improve performance.
- 2. The following rules will determine the application of penalty points and the award and termination of contracts:
  - a) Failure to comply with contract conditions will lead to the application of penalty points as detailed below, in a range from 1 to 20.
  - b) Each set of penalty points will be attached to the Contract for a period of 1 year. If at any time a Contract has 20 or more points attached to it, that Contract will be terminated, either immediately or, at the discretion of the Council, after a notice period.
  - c) Some failures will not have a penalty points score but will instead result in immediate Contract termination. Particularly serious failures may result in further action being taken against the Contractor. For example a vehicle allocated to a Contract that is deemed to be in a condition that would attract an immediate prohibition with 'S' notice would result in the termination of that Contract and the suspension of the Contractor from consideration of tender awards for a period of time.
  - d) In awarding Contracts, consideration will be given to the past performance of Contractors on Contract services.
  - e) Points applied will be factored according to the frequency of services on the Contract, as follows:
    - Contracts having more than 120 single journeys per week penalty points detailed below x 0.25
    - Contracts having 61 to 120 single journeys per week penalty points detailed below x 0.5
    - Contracts having 13 to 60 single journeys per week penalty points detailed below x 0.75
    - Contracts having up to 12 single journeys per week penalty points applied as below
  - f)If the same failure is recorded a second time after the first instance, within 56 days of that first instance but after sufficient time has been allowed for remedial action to be taken, double the factored penalty points will be applied.
  - g) Following breaches of Contract Conditions Contractors may be suspended or excluded from further Contract awards, either temporarily or permanently.

# 3. Penalty points will be as follows:
